

## Modulo Jean Monnet "EuPlaw"

Summer School 2014

Instruments of private law as incentives of regional process in European Union

The Summer school in the first year aims at providing a basic knowledge of the main steps of European integration through typical instrument of private Law.

The lectures (42 hours) aim to ground the basis to understand how in the European Union, and in the EU legal system, new governing models are emerging as a complementary or alternative response to legislative harmonization. EU legislation follows a vertical partition in terms of economic sectors, abandoning traditional divisions between public and private law.

Summer School 2015: Individual's Status and EU integration process.

Summer School 2016: Regulatory functions of the contract in the EU Legal system
